

ALTA ZINC LTD

Mine Development Manager

ITALY

Site-Based Contract Position in Northern Italy Historic MVT Zinc/Lead Mining Operation

Alta Zinc Ltd is an ASX-listed company that has operated in Italy since early 2015.

The company is now seeking to engage a suitably qualified and experienced mining professional to assist with plans to re-start mining at the historic Gorno Zinc Project in Lombardy province, near Bergamo in northern Italy. The successful candidate will have significant responsibility for guiding and executing the mine re-development utilising the existing infrastructure.

QUALIFICATIONS AND EXPERIENCE SOUGHT

- Eligible to reside and work in Italy – fluent in the Italian language.
- Post-graduate qualifications in Mining Engineering or a related field.
- Membership of relevant internationally recognised professional bodies.
- At least 10 years prior relevant experience at a senior management level.
- Ability to manage a site based team of admin & geology personnel.
- Experience in the base metal sector – zinc/lead deposits preferred.
- Knowledge of MVT deposits and geological settings desirable.
- Experience in both modern underground mining methods & historic operations.
